Press Release

CLEAR TECHNOLOGIES NAMES
NEW SYSTEMS ARCHITECT

*"Keith transforms information technology
infrastructures into dynamic systems."*

Phil Godwin, Vice President of Sales and Marketing, Clear Technologies

FRIDAY, JULY 8, 2011: COPPELL, TX USA: Clear Technologies announces the appointment of Keith McCallister as Systems Architect. McCallister joined the Pre-sales Technical team March 2, 2011.

In his new position, McCallister will be responsible for Power Systems design and installation. "Our customers want, and frankly need a consultant that can transform their information technology infrastructures into dynamic systems that deliver competitive advantages. Keith's rare ability to succinctly communicate coupled with his aptitude for simplifying complex systems squarely meets their need. We are excited to have him part of our team." said Phil Godwin, Vice President of Sales and Marketing.

McCallister brings over 29 years of systems design experience to his new position including former positions as: Consulting Field Technical Sales Specialist at IBM, Consulting Technical Presales Specialist at IBM, and Consulting I/T iSeries Business Intelligence (BI) Technical Sales Leader at IBM. McCallister's qualifications consist of iSeries, AIX, and ITIL V3 certifications. He received a Bachelor of Science in Computer Science from Grambling State University in Grambling, LA. McCallister is an active civic volunteer serving as past school board member at Metro Academy of Math and Science and is a current member of the Hurst Euless Bedford ISD(HEBISD) Leadership Academy. Additionally, he serves as the Youth Athletic Director at the Mount Olive Baptist Church.
